

FUTURE GLOBAL OUTDOOR COOLING SOLUTION

Safe. Sustainable. Globally compatible. Zero hassle.

Pfannenberg's Next-Generation Outdoor Cooling Solution

Engineered for global deployment and designed to meet the most stringent future F-Gas regulations. The patented technical solution and use of propane sets a new benchmark for safety, sustainability, and compliance in outdoor cooling.

Globally Scalable & Locally Manufactured

- **One Global Standard**
  Designed for all regions and regulatory environments.
- **Continuous Availability**:
  OEMs benefit from simplified global rollouts, receiving the same certified unit everywhere.

Sustainable & Compliant

- **Natural Refrigerant**
  Use of R290/propane with extremely low global warming potential.
- **Future-Proof**
  Ready for 2032 and beyond, anticipating regulatory changes and environmental goals.
- **Global Certifications**
  This product meets UL, CE, and all major international standards.

100% Safe

ELECTRO-TECHNOLOGY FOR INDUSTRY

Future Global Outdoor Cooling Solution

100% Safe by Design to Cabinet

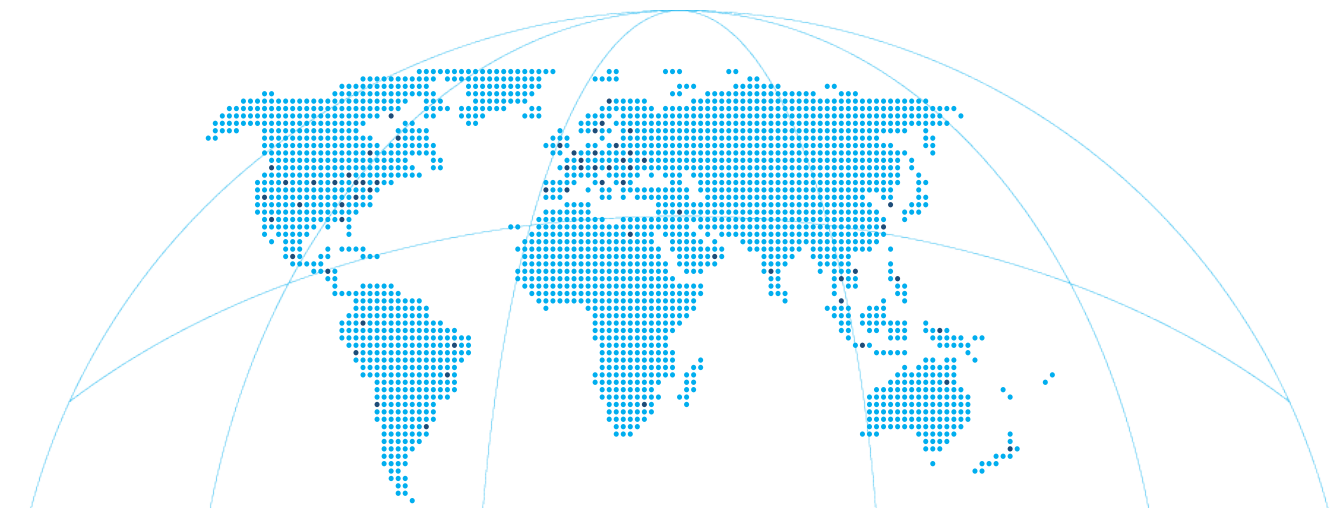

Patented Safety Solution
Innovative technology provides 100% protection from the ignition source inside the cabinet, ensuring maximum safety for people, equipment, and the environment.

Harsh Environment Ready
Built for demanding outdoor applications: mining, energy, infrastructure, and more.

Our innovative design ensures complete separation between the cabinet interior and the cooling system. This means absolute peace of mind: no risk of contamination, no compromise on safety, and total reliability for your operations.

Pfannenberg Protects People, Machines & Environment

At Pfannenberg, protecting people, machines, and the environment drives every product we create. Our solutions are built for long-term safety, global compliance, and a more sustainable future.

Global availability
